

Laker Secondary School is awesome! Here are some reasons why:

Laker High is accredited through AdvancED, the global leader in advancing education excellence.

Laker Junior High boasts the only student team in the Thumb with a science experiment project that was launched into space as part of the Student Space-flight Experiments Program.

Laker High is the county leader in offering dual enrollment opportunities for our families! Juniors and seniors have the opportunity to take dual enrollment courses to earn FREE college credits - up to an associate's degree - while earning a high school degree. (College Direct program, offered at the Huron Area Technical Center by Mid-Michigan Community College)

Laker High offers unique courses such as forensic science, psychology, sociology, college biology, theater, woodworking, advanced agriculture, Senior Strategies and more.

Spanish and French are offered starting in sixth grade.

An after-school homework assistance program and tutoring are offered to help our students, as well as a Guided Study program .

Laker Junior High students have daily seminar time that's used for a variety of purposes, such as homework completion, receiving assistance from teachers on projects/assignments, and character education (such as the Five Star Life program).

Laker High offers unique, personalized job shadowing experiences for our high school students that allow valuable, first-hand views of career fields students are interested in.

We have a highly-respected FFA program with a strong tradition of award-winning members.

Lakers offers expanded opportunities in the arts, including visual arts, digital media, band, choir and theater classes. We also have a strings group.

Lakers offers a CAD (computer-aided design) course.

Monthly pride assemblies provide recognition and rewards for students who demonstrate effort, character and academic achievement.

The modified block scheduling format affords Laker High School students an opportunity to complete 8 courses each year so they can enjoy more electives and advanced coursework.

Lakers is the only school to offer the Hueschen Science Scholarship, a full four-year scholarship to MSU for qualified graduates entering a field of science.

Class field trips are offered in sixth, seventh and eighth grades, which includes the Washington, D.C. trip that's been a 35+ year tradition. Special education students also have their own trip each year.
