

SCHEURER WELLNESS CLINIC - LAKERS

Reaching out to Laker students, families and staff to promote health and wellness

The Scheurer Wellness Clinic will be an innovative way to ensure students receive the healthcare they need to succeed in school because a healthy student is a better learner.

Not to be confused with your child's pediatrician or family physician, the Scheurer Wellness Clinic meets the needs of those requiring same day appointments for non-emergent care. For regular check-ups, please continue to use your pediatrician or family physician.

The Scheurer Wellness Clinic staff will be available for the Fall orientations. Consents for services will be sent prior to school starting in the Fall.

Location:

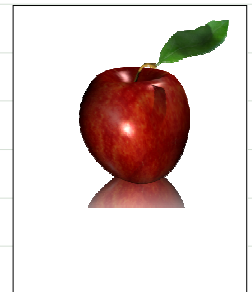

The clinic is in the former Jr. High Office area. The clinic staff will travel to the elementary to see students there, as well.

Hours:

Brooke McNabb, Registered Nurse, will be available Monday through Friday from 8:00 am to 12 noon. Brenda Kretschmer, Nurse Practitioner, will provide oversight services throughout the week.

Services:

- Daily nursing services for grades K-12
- Medication administration (Tylenol, Motrin, cough drops, TUMS, etc.)
- Daily medication administration of the child's home medications
- Referrals to other agencies or primary care providers
- Promotion of healthy lifestyles including health education
- Basic First Aid for injuries and illnesses
- Assistance with management of chronic diseases (i.e. asthma or diabetes)
- Sports physicals
- Assessment and treatment of acute illnesses (such as: colds, flu, ear infections, sore throats, fever, or injuries).

"A healthy student is a better learner."

If you have any concerns about your child's health status during the day, please feel free to contact the Scheurer Wellness Clinic nurse.

MEET THE SCHEURER WELLNESS CLINIC STAFF
